Community-Clinical Linkages

Goal: By 2018, establish bi-directional referral systems between eight healthcare providers and MIDPRPs.

Objective #1: Increase awareness of best practices for DPP bi-directional referral systems between healthcare providers and MIDPRPs.

Strategy #1: Within 1422 communities, identify and describe current bidirectional referral models between healthcare providers and community providers.

Summary of Impact/Outcome	Timeline	Indicators/ Deliverables	Partners/Name	Resources
Process maps developed for one health system/DPP provider in each of the CDCNs	Oct-16	available by request	GR-YMCA/Cherry Health, NKFM/Western Wayne, Bixby-YMCA/Family Medical Center, GDAHC-HFM	
State Alliance of YMCAs hosting quarterly call with 1422 CDCNs to discuss bidirectional feedback	2017	calls hosted	State Alliance of YMCAs, GRYMCA, GDAHC, Bixby, NKFM	

Strategy #2: Through MDPN and DPAC, share best practice models on establishing sustainable, effective, bi-directional referral systems with diabetes prevention statewide partners.

Summary of Impact/Outcome	Timeline	Indicators/ Deliverables	Partners/Name	Resources
Included questions related to feedback methods in the STR survey in 2017-2018	2017-2018	survey summary available TBD	MCEITA, MPRO, MSMS	

Strategy #3: Coordinate meetings between healthcare providers, care teams, and MIDPRPs to build relationships that will support bidirectional referral systems

Summary of Impact/Outcome	Timeline	Indicators/ Deliverables	Partners/Name	Resources
DPCP staff and DPP providers participating in an evidence-based programs coalition to increase cross referrals and share best practices.	2017-2018	mtgs hosted, info available by request	MDHHS Arthritis Program	
Hosted meetings with DSMEs and DPPs to establish cross-referral systems	Summer 2017	mtgs hosted	1422 DPPs and DSMEs	
Reviewing feedback protocol between DPP providers and health systems within 1422 CDCNs	Spring 2018		1422 CDCNs	
DPCP staff facilitated PDSA cycle with DPP provider to increase health system referrals of priority population participants.	Fall/Winter 2017	mtgs hosted	available by request	

Objective #2: Implement standardized protocols to track DPP referrals between one healthcare system and local DPRPs in each of the 1422 communities.

Strategy #1: identify opportunities to adopt standardized protocols to track DPP referrals and readiness assessments.

Summary of Impact/Outcome	Timeline	Indicators/ Deliverables	Partners/Name	Resources
In September 2017, State Alliance of Michigan YMCAs conducted survey of YMCA DPPs to assess current referral partners and capacity to provide participant feedback to referring provider.	2017-2018		State Alliance of Michigan YMCAs	

Strategy #2: Share models, tools, and resources that healthcare systems and MIDPRPs can use to develop protocols for tracking DPP referrals and readiness assessments.
